PROFILE SUMMARY

React JS Trainee and Frontend Developer with strong knowledge of JavaScript (ES6), React.js, HTML5, CSS3, Bootstrap, Python, and MySQL. Hands-on experience in developing responsive web applications, integrating REST APIs, and building reusable UI components using React. Proven ability to work on frontend projects including Task Management Applications, Weather Forecast Applications, and E-Commerce User Interfaces. Strong problem-solving skills, quick learner, and passionate about creating user-friendly web applications while continuously improving technical expertise in modern web development technologies.

TECHNICAL SKILLS

Frontend	React.js, JavaScript ES6, HTML5, CSS3, Bootstrap, Responsive Web Design
React Concepts	Components, Props, State, React Hooks, Conditional Rendering, Forms, Routing Basics
Backend / DB	Python, MySQL, CRUD Operations, Joins
API / Tools	REST API Integration, JSON, npm, Git, GitHub, VS Code
Core Concepts	OOP Basics, Debugging, Problem Solving, SDLC Basics

REACT / FRONTEND PORTFOLIO PROJECTS

React Task Management Application | Tech Stack: React.js, JavaScript, HTML5, CSS3, Bootstrap, Local Storage

- Built a responsive task management application to add, edit, delete, search, and filter daily tasks.
- Used React components, props, state, and hooks to manage UI updates and user interactions.
- Implemented local storage to persist task data after browser refresh and improve user experience.
- Designed reusable components such as Header, TaskForm, TaskList, TaskCard, and FilterSection.

Weather Forecast Application | Tech Stack: React.js, JavaScript, REST API, JSON, Bootstrap

- Developed a weather dashboard that fetches and displays city-based weather data from a REST API.
- Handled API response data using JSON and displayed temperature, weather condition, humidity, and wind details.
- Implemented search functionality, loading state, error handling, and responsive UI layouts.
- Strengthened practical understanding of API integration and component-based frontend development.

E-Commerce Product Listing UI | Tech Stack: React.js, JavaScript, React Router, Bootstrap, JSON

- Created an e-commerce frontend with product listing, product details, category filter, and cart UI screens.
- Used reusable React components for ProductCard, Navbar, Cart, ProductDetails, and Footer sections.
- Implemented routing basics for home, products, cart, and product details pages.
- Focused on responsive design, clean UI structure, and real-world shopping application flow.

Phishing Website Detection using Machine Learning | Tech Stack: Python, Scikit-learn, Machine Learning

- Developed a machine learning model to detect phishing websites using URL and webpage-based features.
- Implemented classification algorithms such as Random Forest and Naive Bayes for prediction.
- Performed data preprocessing, feature extraction, and model training/testing using Python and Scikit-learn.

EDUCATION

Usha Rama College of Engineering & Technology, Gannavaram, AP. **2020 - 2024**

B.Tech. Information Technology | CGPA: 6.67/10.0

NRI Junior College, Guntur, AP. **2018 - 2020**

Intermediate (MPC) | CGPA: 9.23/10.0

CERTIFICATIONS

Cyber Security Virtual Internship - AICTE

- Completed cybersecurity fundamentals covering cyber threats, phishing, malware analysis, and cyber hygiene practices.

Web Development Course

- Completed HTML, CSS, JavaScript fundamentals and responsive web design concepts for building web pages.

SOFT SKILLS

Problem Solving | Team Collaboration | Quick Learner | Communication | Adaptability
